Software Engineer   **06/2022 - 07/2023**

Asterbyte Software Systems Pvt Ltd | Imentiv.ai

- Contributed front-end and back-end development for a cutting-edge emotion and personality analysis project, utilizing React, Next.js, and FastAPI.
- Implemented payment features through Stripe gateway and developed entire backend and frontend for Personality Trait module.
- Collaborated closely with the team for code optimization, fostering efficient teamwork and leading discussions for new features.
- successfully developed an emotion detection system from video chats for quarterly goals
- contributed the development of Sursathak, a musical instrumental app by Asterbyte, contributing to backend features using NodeJS and MongoDB.
- Utilized Git and GitHub for version control.
- Url: https://imentiv.ai

EXPERIENCE

Software Engineer

Centgrade Labs Pvt Ltd | PSC challenger

- Worked with MERN stack, completing features benefiting sales, data entry, and management teams.
- Proficient in Node.js, Express, and MongoDB for backend development.
- Developed REST APIs for seamless frontend-backend communication.
- Designed database models and created corresponding APIs for efficient data management.
- Implemented CRUD operations and aggregation features for real-time progress tracking.
- Developed APIs for Redis integration, managing keys and enhancing system performance.
- Integrated Telegram APIs to automate comment sharing and user details in groups.
- Utilized cron jobs for scheduled notifications, including OTP credit status and premium customer details.
- Integrated push notifications for real-time user communication.
- Utilized Git and GitHub for version control.
- Url: https://www.challengerapp.in/

Web developer

09/2018 - 4/2020

Foxarray Technology Consultancy

- Successfully completed a 3-month internship, contributing to client projects and gaining hands-on experience in a service-based company.
- Collaborated on various web development projects, working closely with cross-functional teams to ensure project success.
- Provided valuable assistance in client advisory programs, contributing insights and solutions to enhance client relationships.
- Actively participated in client meetings, effectively communicating project progress and addressing client requirements

PROJECTS

Imentiv.ai | A Machine Learning–based Emotion AI Tool

Developed full-stack features for an advanced AI platform that analyzes the emotional tone of actors in video content. Helped users gain insights to optimize emotionally resonant content using ML-driven emotion detection.

ChallengerApp (PSC Challenger) | Learning App for Kerala Govt Exam Aspirants

Developed the backend and dashboard for an educational app featuring mock tests, live classes, quizzes, and performance tracking for government exam preparation.

Ikxxa.com | Full-Stack E-commerce Website

Contributed to both front-end and back-end development of a dynamic e-commerce platform, optimizing the user experience and improving scalability.

Airretailer.com | CMS Website (Strapi)

Worked on a responsive, fast-loading CMS website with Strapi and Next.js

In Development

- **Automarto (**Multi-Vendor E-commerce Platform)
- s**eller.Automarto** (Vendor Portal for Automarto)
- **UDF Website (CMS)** (CMS Website (Strapi & nextjs))

EDUCATION

BACHELOR OF ENGINEERING IN COMPUTER SCIENCE

Visvesvaraya Technological University

Year of Graduation: 2018

LANGUAGES

English, Hindi & Malayalam
